8. Department of Labor (12)
9. Department of Education (90)
10. Department of Housing and Urban Development (14)
11. Department of Transportation (20)
12. Department of Labor (12)

Recommendations

- The Department of Education should consider the high percentage of material weaknesses and questioned costs of high failure states when allocating funds.
- States with high population and high compliance percentage (e.g., New Jersey) should receive more funding, while summary

Further accurate recommendations can only be made when additional data is provided, for example College enrollment statistics.
